

## **IET ARCHIVES DEPOSIT AGREEMENT**

[This form will be kept indefinitely in order to prove providence]

### **DESCRIPTION AND QUANTITY OF DEPOSIT**

Folder containing handwritten correspondence, dated 1941-2, between C S Franklin (known for the antenna design bearing his name), N Wells (of the Marconi College in Chelmsford) and others, regarding work that was being conducted on the zig-zag antenna. There are 46 typed and handwritten sheets, including letters and draft patent applications. Test results are discussed, but graphs and data referred to are not present.

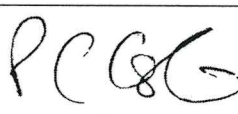

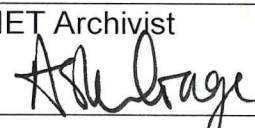

Many of Franklin's letters were written from the Poldhu Hotel, which had been built in 1899 to house staff working on Marconi's groundbreaking 1901 transatlantic wireless experiments.

### **DEPOSITOR INFORMATION**
